CLASSIC LINE

At the heart of your home, where warmth and comfort meet, our classic wood-burning stoves embody true authenticity. They combine timeless design with high-level functionality, built on traditional craftsmanship and premium-quality materials.

A key advantage of this range lies in its thermobeton combustion chamber. This high-grade material stores heat extremely efficiently and ensures long-lasting diffusion, creating a cozy atmosphere and a constant temperature without unnecessary energy loss.

The firebox door, crafted from robust steel, highlights the overall understated elegance and ensures long-term durability. An integrated three-point locking system guarantees not only optimal safety but also a perfectly airtight seal and efficient combustion.

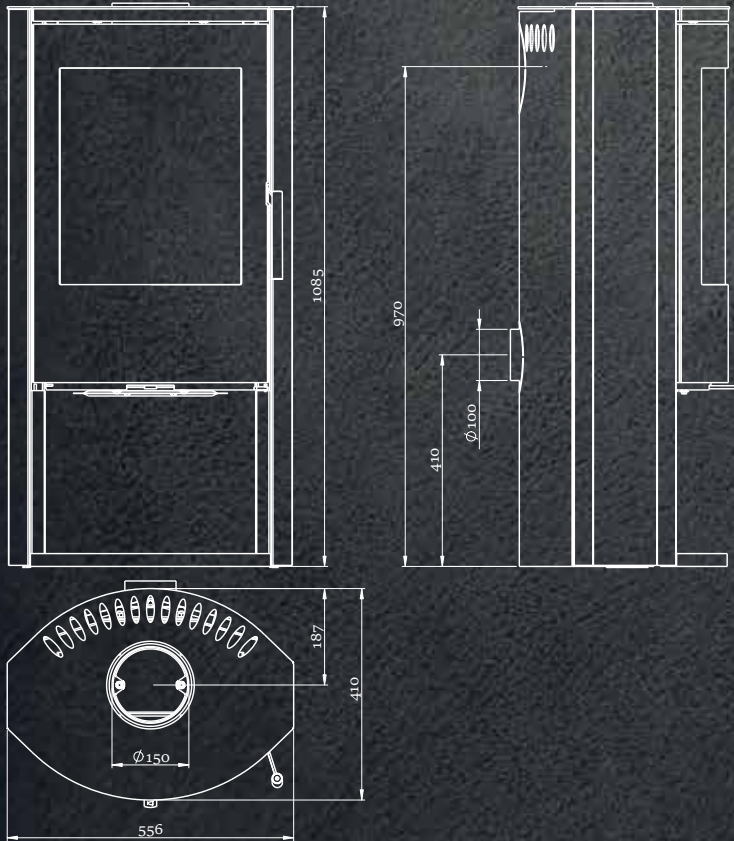

As a result, the Classic Line blends proven tradition with modern heating technology. It offers more than just warmth — it creates a true aesthetic experience and a place for unforgettable moments in your home.

E-BASIC

Thanks to its compact design, this stove is the ideal choice for smaller spaces. The E-Basic model combines efficient heating performance with a modern design, integrating elegantly into any interior style. Enjoy pleasant warmth and a refined ambiance, perfectly suited to your interior style.

Ceran heating plate

The top plate of this fireplace is made of Ceran glass and serves as a heating plate, ideal for preparing and reheating food. It allows for the practical use of the fireplace's heat while maintaining safety, functionality, and an elegant design.

MODERN LINE

In today's modern lifestyle, our modern wood-burning stoves perfectly combine style, functionality, and technology. They offer a solution that ideally adapts to your contemporary lifestyle.

Our range of stoves brings together innovative technology, aesthetic design, and functionality. Each model serves as a valuable addition to your interior. Enjoy the warmth, elegance, and comfort of our exclusive models.

The glass doors allow you to fully enjoy the view of the flames and a pleasant warmth. The elegant handle, continuous across the entire height, lends the stove an extra touch of refinement while ensuring simple and easy intuitive operation.

The thermobeton combustion chamber effectively stores heat and ensures long-lasting comfort. It also helps reduce environmental impact and promotes a more sustainable lifestyle.

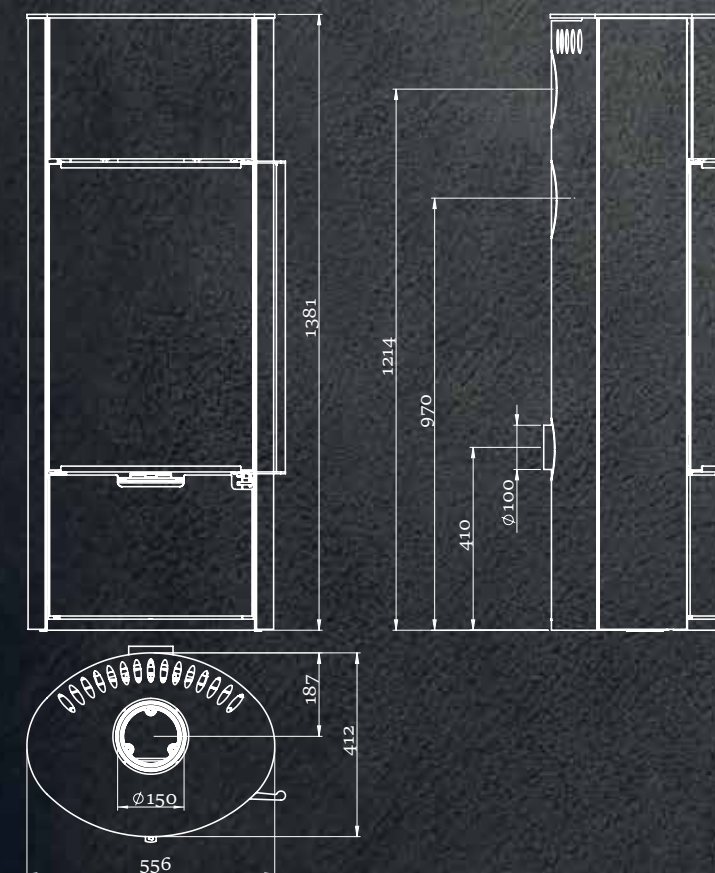

The 8 mm thick steel top plate offers high stability and emphasizes the modern aesthetic of the appliance. It allows for a harmonious integration into any contemporary interior.

E11 FG

With its full-glass door, the E11 FG is both an efficient heat source and a truly elegant design object. Our patented combustion system guarantees optimal energy use and a reduction in heating costs. Experience the perfect balance between aesthetics and efficiency, bringing a warm and comfortable atmosphere to your home.

SERIES 50

The 50 series features wood-burning stoves with high heating power, designed for logs up to 50 cm in length, thus setting new standards in efficiency and performance. These stoves bring warmth and comfort to your interior in a completely new way.

A key element of this series is the thermobeton firebox, specially designed for larger logs. It allows for prolonged heat accumulation and increased efficiency, even on the coldest days.

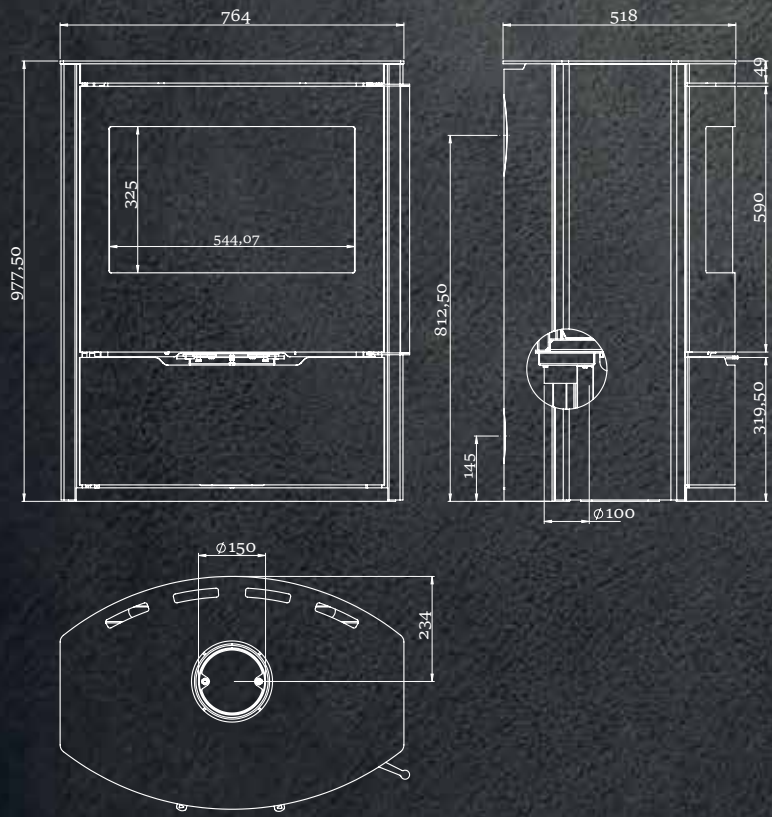

The elegant handle, extending across the entire height of the door, combines aesthetics and functionality. It makes opening and closing easier while adding a refined and sophisticated touch to the design.

The 50 series is much more than just a stove – it symbolizes power, efficiency, and reliability. Enjoy maximum warmth with minimal effort and transform your interior into a true cocoon of well-being.

O1

Made of robust steel, this stove combines a powerful presence with refined elegance. It stands out with a full-height door handle and accommodates logs up to 50 cm, offering a maximum view and long-lasting heat. Available in a steel version or with soapstone or limestone cladding, the O1 adapts to any interior. A remarkable piece that brings rustic charm and a warm atmosphere to your living space.
